PROJECTS

Health Monitoring System Using IOT

2020-2023

A health monitoring system using IoT enables real-time tracking of vital signs and health data for timely medical intervention. It is detecting the Alcohol contents.

Main Advantage: Display the alcohol contents rate.

Event Management For Catering Website

2024-25

The proposed catering website solves industry challenges with transparent pricing, menu customization, discounts, and a customer gallery, ensuring a user-friendly and engaging experience.
